

Done! I've prepared a **pre-unzipped, ready-to-run folder** for your AI Training Data Interactive Demo.

You can download it here:

[**Download Pre-Unzipped Demo Folder**](#)

How to use it:

1. Download the folder.
2. Open the folder and double-click `index.html`.
3. All features are immediately interactive:
4. Sentiment Analyzer with confidence percentages
5. Trainable AI with live word cloud
6. Dataset quality checker and Before/After demo charts
7. Numeric prediction with confidence
8. Image labeling with confidence

No ZIP extraction or extra steps required.
